- 1.2. The Annexes, including the Overview of the Annex Structure, constitute an integral part of the Agreement. In case of discrepancy between different parts of the Agreement the following order of interpretation shall be applied:

- 1.2.1. The main body of this Agreement and
  - 1.2.2. The Annexes.
- 1.3. In case of additional requirements, exceptions and/or contradictions between the Agreement and any Technical Specifications or GSM Association Permanent Reference Documents, the provisions of the Agreement shall prevail.
- 1.4. Subject to applicable laws, the Parties agree to be bound by GSMA Permanent Reference documents relevant to International Roaming.
- 1.5. The Parties agree that the sole purpose of the Agreement is the provision of International Roaming Services to customers of Access Seeker on SWAN's mobile network. The Parties acknowledge that the International Roaming Service as provided to Access Seeker under this Agreement is solely intended to enable Roaming Customers of Access Seeker to use mobile communication services while temporarily travelling in SWAN's licensed area.

The International Roaming Service as set forth under this Agreement is not intended

  - 1.5.1. to substitute domestic wholesale or retail offerings for the provision of domestic services on SWAN's network
  - 1.5.2. to provide services to Customers of Access Seeker that are not resident in or do not have stable links within the meaning of Art. 2 para. 2 lit a) Regulation (EU) 2016/2286 to the member state of Access Seeker.
  - 1.5.3. to provide non-EU/EEA Roaming Customers with roaming services.
- 1.6. SWAN is entitled to evaluate whether a request of Access Seeker is reasonable and request initial estimate of traffic volumes from the Access Seeker. Pursuant to BEREC Guidelines, SWAN is entitled to reject any request to provide direct International Roaming Service, which requires deployment of an undue level of resources to be implemented and where it is reasonable to foresee that the implementation costs will not be recovered within a reasonable period.
- 1.7. Any use of International Roaming Service for purposes other than provision of roaming services to Access Seeker's Roaming Customers while they are periodically travelling as described in 1.5 - such as but not limited to permanent or predominant usage in SWAN's home country - is not part of this Agreement. This Agreement has provisions to prevent permanent roaming or anomalous or abusive use of International Roaming Service. To meet the obligations listed above, Access Seeker has implemented a suitable mechanism to ensure that the Services are only used to provide Regulated Roaming Services to Roaming Customers.
- 1.8. The Parties acknowledge that the Articles 1.5, 1.6 and 1.7 are material to the Agreement. Therefore, Access Seeker guarantees to comply with these Articles during the term of this Agreement and will fully indemnify SWAN for all damages incurred through breach of these Articles. Article 16.4 applies accordingly. Any breach of these Articles shall be deemed to constitute negligence under Article 14 - Liability of the Parties, and accordingly the non-defaulting Party reserves the right to claim damages as set out in that Article. Such breach shall additionally be deemed an event of permanent, anomalous and abusive usage of International Roaming Service and the

non-defaulting Party reserved the right to take necessary measures accordingly pursuant to applicable legislation. In case of such breach SWAN also reserves the right to take necessary measures accordingly pursuant to applicable EU Roaming Regulation which may include, but are not limited to, termination of the Agreement.

The Roaming Customer is free to contact SWAN's Customer Care Services directly. However, the primary responsibility for customer care remains with Access Seeker. Each Party will ensure that there is, at least during office hours, an English speaking operator on duty, to whom a Roaming Customer can be referred.

Customer care contact numbers are defined in Annex 8

### **Roaming Information**

Changes in Emergency Service, Customer Service, Directory Enquiry numbers, and Tariffs shall be exchanged in accordance with the provisions of the Agreement.

Access Seeker shall inform its own Roaming Customers about roaming in SWAN's Public Mobile Network.

### **Public Mobile Network Faults**

In the event of a perceived Public Mobile Network fault a Roaming Customer should contact the home Customer Care Services while roaming in the Public Mobile Network of SWAN. The home Customer Care Services will provide the first point of contact but may refer the Roaming Customer to SWAN's Customer Care Services if appropriate.

In the event that the Customer Care Services of one Party has a query concerning potential faults of the other Party's Public Mobile Network, then the Customer Care Services shall contact the contact point defined below.

In addition, it may be necessary that technical experts of one Party get into direct contact with the other Party's technical experts (e.g. to establish trouble shooting). In such cases additional contact points shall be provided. These contact points are defined in Annex 8. Frequently arising faults in the Public Mobile Network or Services of SWAN experienced by Roaming Customers and indicated to Access Seeker shall be reported to the other Party's contact point.

SWAN shall send Completion Certificates confirming the successful execution of IREG & TADIG tests which includes testing of the TAP procedures according to the Test Specifications of GSM Association Permanent Reference Documents.

#### **Testing of Service availability**

SWAN agrees to perform relevant tests of service availability, according to the IREG and TADIG Test Specifications, every time a major change which has an impact on International.

#### **Testing SIM and/or USIM-Cards**

##### **General**

Access Seeker will make the bilaterally agreed number of test SIM and/or USIM-cards available to SWAN under the following conditions:

- Send test SIM and/or USIM-card(s) as agreed bilaterally in a written notice without any activation fee or any subscription fee. Access Seeker will be treated as a Roaming Customer of the SWAN
  - All necessary information concerning the SIM and/or USIM-card(s), i.e. IMSI, MSISDN, PIN, PUK, shall be forwarded to SWAN as well.
  - The SIM and/or USIM-card(s) remain in the property of the SWAN

#### **Tests before the commercial start of roaming services (pre-commercial roaming phase)**

As a general principle, it is agreed that SWAN using test-SIM and/or USIM-card(s) will not receive a payable bill from the issuing Access Seeker for the test traffic generated made in the Public Mobile Network under test. TAP-data, BCE Reports and bills will only be sent for test purposes.

Unless otherwise agreed, it is the sole responsibility of SWAN to block Roaming Customers of Access Seeker during the pre-commercial phase and in no case the Access Seeker has to bear the costs incurred by its customers roaming in SWANs Public Mobile Network.

#### **Tests during the commercial roaming phase**

As a general principle it is agreed that during the commercial roaming phase the usage of these SIM and/or USIM-card(s) is fully chargeable for traffic charges. The Access Seeker shall therefore have the right to send a (single) bill to SWAN for the traffic generated by the exchanged SIM and/or USIM-card(s), however, only if the amount exceeds the bilaterally agreed non chargeable value. The amount charged is only the amount exceeding the non chargeable value calculated on a monthly basis. The non chargeable

monthly value <per test SIM/for the total of test SIMs is .....<currency >

The tariff used will be either the Tariff of SWAN or the retail tariff of Access Seeker. In case the retail tariff is used, Access Seeker will attach an itemised bill to the invoice for control purposes. The payment shall be done according to the provisions set out in Annex 3.2.

### **Traffic generated outside SWAN during pre-commercial or commercial roaming phase**

All costs occurring for traffic generated with test SIM and/or USIM cards issued to SWAN outside SWANs network will be charged by the Access Seeker.

The tariff used will be the Access Seeker retail tariff. The Access Seeker will attach an itemised bill to the invoice for control purposes. The payment shall be done according to the provisions set out in Annex 3.2.

Using best endeavours, the Access Seeker will inform SWAN and bar the test SIM and/or USIM card(s) being used outside SWANs Network.

SWAN is fully liable for all traffic costs as detailed above, damages and costs (as limited by this agreement) incurred by misuse of test SIM and/or USIM cards outside SWAN for the first 180 calendar days or until it is informed by the Access Seeker, whichever is the smaller:

### **Lost or stolen test SIM and/or USIM cards**

In the event that SWAN determines it is no longer in possession of the Access Seeker Test SIM and/or USIM cards, SWAN must immediately notify the Access Seeker in written form and request that the missing card(s) be deactivated. Once sufficient notification has been delivered to the Access Seeker, the liability of SWAN ceases for all further usage on the missing cards(s) which occurs beyond the date of notification. However, the burden is on SWAN to provide sufficient proof that adequate notification was given to the Access Seeker.

## **ANNEX 5.2 SECURITY**

Security functions of the individual Parties are specified in here and any other PRD documents.

### **Authentication**

The Parties agree to implement Customer Identity Authentication for Roamers on their network. The purpose and mechanism for authentication are described in 3GPP TS 42.009, 3GPP TS 43.020 and in GSMA PRD SG.15.

  - Network access using IMSI
  - Location updating involving VLR change
  - Network access for at least 1 in x mobile originated and terminated call set-ups (incl. SMS) for SWAN
  - (The value of x should be less than 10)
  - Supplementary service operation outside call
  - Cipher key sequence number mismatch

If packet services are supported, authentication is also to be performed at every occasion of:

- Network attach

- Routing/tracking area updating involving S-GW/SGSN and MME change
  - PDP context activation/EPS bearer activation
  - P-TMSI (P- Temporary IMSI)/GUTI signature mismatch, if P-TMSI signature is used (where applicable)
  - P-TMSI signature not inserted in a Attach Request or Routing Area Update Request
- Security data sets (triplets, quintuplets etc.) provided by the HPMN to the VPMN to authenticate its roaming customers shall be used only once by the VPMN. If the VPMN has used all security data sets and it is not possible to get new ones from the HPMN, then the Parties agree that calls are not permitted and that the HPMN will not receive any charges related to those calls which were not permitted.

**Authentication during a malfunction of the network**

The Parties agree that if a mobile station (MS) is registered and has been successfully authenticated, whether active or not active on a call, calls are permitted (including continuation and handover) and the Access Seeker will receive the charge.

If an MS attempts to register or re-register and cannot be successfully authenticated due to the network malfunction, calls are not permitted.

If an MS has already been registered on the network, and has already been authenticated, and cannot be successfully re-authenticated due to network malfunction (e.g. the Access Seeker was not able to provide authentication pairs RAND, SRES), the Parties agree that calls are not permitted and that the Access Seeker will not receive any charges.
